

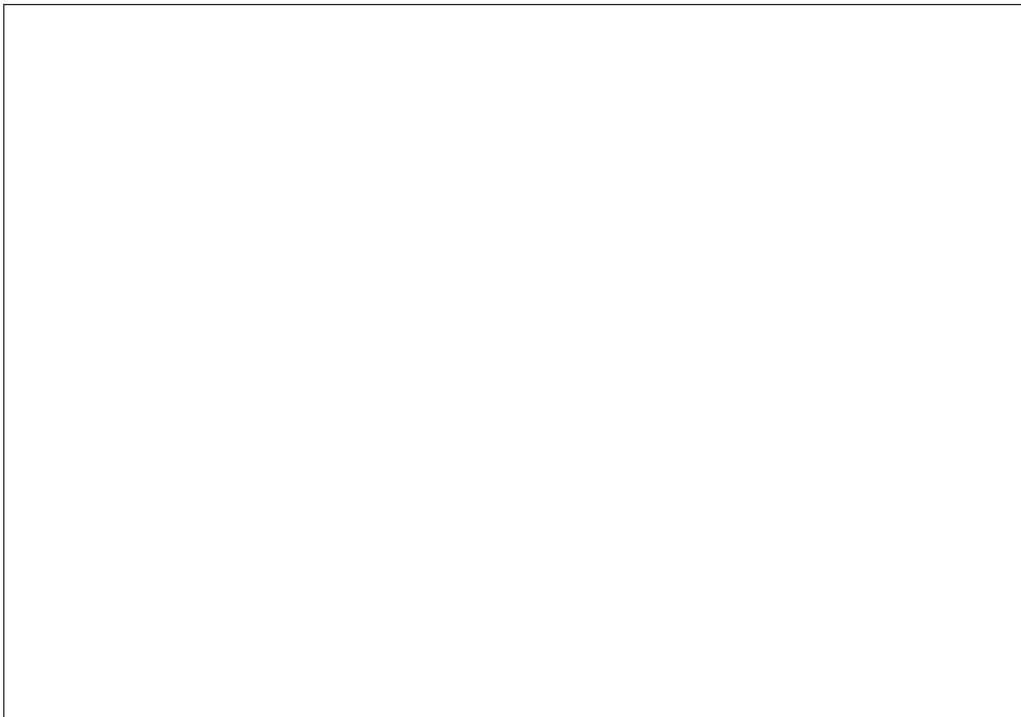

Mapping Discourse

Use the space below to create a visual representation that shows how group members are seated. Tally who speaks and use arrows to indicate the flow or pattern of conversation and responses.

Facilitator or Group Reflection Questions

1. How balanced is the conversation the group is having? Are all members contributing? Is anyone dominating in ways that are counterproductive? Are there members who need to be encouraged to participate?
2. If there is an imbalance, what might be the reasons for it?
3. Does the group need to continue to pay attention to patterns of conversation?

Example of Mapping Discourse
